

Residential Burglaries in the Sterling Park Neighborhood

Colma has experienced two residential burglaries in the last two months. All involved residences have sustained forced entry via door pries and/or window smashes. Property stolen includes electronics, jewelry, camera equipment, money, and other various items of value. The victim residences are located in the Sterling Park neighborhood of Colma. The Colma Police Department is strongly urging residents to be vigilant in recognizing suspicious persons and vehicles. Suspects are likely knocking on front doors first, as means of determining whether the occupants are home. Beware of solicitors or other subjects making contact at your home. Be sure you recognize the person knocking at the door before you open it. Side and rear doors appear to be preferred way of entering unoccupied residences.

The Colma Police Department asks that ANY suspicious activities by persons or vehicles be immediately reported by calling 911.
